Lang-Bar Gardens

1950

*The Home of Modern and Rare Gladiolus
in the San Fernando Valley*

14740 Roscoe Blvd. - - - Van Nuys, California

GREETINGS

Lang-Bar Gardens presents our 1950 Gladiolus catalog with pride and pleasure.

We bring to you after a careful selection, what we feel are the better new introductions, the standard varieties, and choice older varieties not frequently listed. All listings are in alphabetical order, following each variety listed we give the year of introduction, National Color Classification, prices according to size, and a few words of description.

As in past years we are maintaining our high standard of quality. Our location in the San Fernando Valley makes it possible for us to produce bulbs, because we have a long growing period, which brings them to full maturity. Our soil is conditioned each year as recommended by a National Chemical Company so that our bulbs have a high growth potential. The moisture content of our soil is controlled. Our weather conditions do not require the use of artificial processes of curing. We have storage facilities which permit the circulation of natural air. Through the latest scientific methods of handling, we are able to give fine quality at a low price.

We feel sure that, all things being equal, you will derive much pleasure from growing these high quality bulbs, and your time and efforts, when they bloom, will give you supreme satisfaction.

OTHER OUTSTANDING RECENT INTRODUCTIONS

BUTTERSCOTCH—1948 (Class 521) A warm, bright pastel in a new shade, Indian yellow overlaid with Chinese coral, with bright throat marks. Bound to be a great show flower and a top commercial. 6 to 7 inch florets, 23 to 30 inch flowerhead, opens 8 to 10 in good condition, grows 5 to 5½ feet in the field.

Price: Large \$.75 Medium \$.50 Small \$.35

CLOTH OF GOLD—1949 (Class 420) This was one of the most popular in its color class at the Southern California Gladiolus Show last year. Being a yellow orange of distinction, it opens 6 to 8 with 4½ to 5 inch florets, on a flowerhead of a medium length.

Price: Large \$.50 Medium \$.35 Small \$.25

INDIAN SUMMER—1949 (Class 486) Due to its unusual color, shows up best when used in a basket or an arrangement. Its color being of an orange overcast with grape, ruby throat, it opens 7 with 4 or 5 showing color on a 17 bud spike and a 24 inch flowerhead.

Price: Large \$.75 Medium \$.50 Small \$.35

MARY ODELL—1948 (Class 400) A chaste white and a winner in its class. A vigorous grower and opens as many as 8 to 10 with 4 in color, long flowerhead. 5 feet in the field, and blooms in 85 days.

Price: Large \$.75 Medium \$.50 Small \$.35

SEASHELL—1949 (Class 540) Not just another pink, but one that must be seen to be appreciated. A tall, soft pink, with white center. Florets average 5½ to 6 inches, flat open smooth, slightly ruffled and has heavy substance and satiny texture.

Price: Large \$1.00 Medium \$.75 Small \$.50 Bulblets 5 for \$.50

LANG-BAR GARDENS

RECENT AUSTRALIAN RELEASES

Originations of Percy Burns

ADAGIO—1949 (Class 583) Blue smoky of formal placement with rose feather, salmon pink base. Opens 5 of 16 buds with 5½ florets.

ADOBE—1949 (Class 407) Deep cream with light purple blotch, petals overlaid and shaded toward edges. Ruffled. Opens 8 on a 20 bud spike.

BURN'S SUCCESS—1949 (Class 477) Very fine blue. Opens 6 of 17 buds on a 23 inch flowerhead. Light heliotrope, with deeper throat mark, with a cream border.

ECLIPSE—1949 (Class 550) Clear light scarlet with faint mottled throat. Opens 6 to 7 florets on 17 bud spike, long flowerhead.

MIRACULOUS—1949 (Class 560) One of the big ones. Rose with a deeper rose blotch, bordered cream. Opens 9 six inch florets on a 21 bud spike, on a 28 inch flowerhead.

PRINCESS MARGARET—1949 (Class 466) Opens 8 of 24 buds firmly attached and well placed. Pale Amaranth pink with cream throat, darker blotch.

PURE GOLD—1949 (Class 412) New pure amber yellow with no trace of red. Opens 7 to 9 of 24 buds on 24 inch flowerhead.

ROSY DAWN—1949 (Class 442) Has proven a fine Australian commercial. A late introduction. Rose pink with decided red blotch.

SCARLET MAJOR—1949 (Class 552) A new true scarlet, edges flaked a bit darker. One of his finest new releases.

SNOWY RIVER—1949 (Class 300) Small, heavily ruffled white. Has a long flowerhead and opens many in good condition.

STAINED GLASS—1949 (Class 370) New shade purple, being a clear translucent Amaranth. Opens 8 to 10 4-inch florets on a nice long flowerhead.

VINDICATOR—1949 (Class 460) A late bloomer opening 8 5-inch florets on a 20 bud spike. Deep scarlet rose with attractive cream blotch.

WONDROUS—1949 (Class 540) Light pink with blushed throat bordered cream. Opens 8 of 19 wide open 7-inch florets on a tapering 30-inch lower head.

AND AN EARLIER RELEASE

DR. PRYOR—1948 (Class 551) Rated in Australia as one of the finest in light reds. Has a cream throat and scarlet blotch.

All these varieties listed can be found in the General Listings—offered by us to you at a great savings over last year, at prices you can now afford.

PLEASE READ BEFORE ORDERING

Retail orders of \$3.00 or more will be prepaid in the United States. Canadian and Mexican orders also prepaid with a minimum order of \$5.00 or over. Cash with order, or on larger orders 25 per cent down, and balance before delivery. Foreign orders, except Canada and Mexico, must be accompanied by money order or draft and shipping charges. To our Foreign and Canadian customers, may we suggest that you secure a permit from your Dept. of Agriculture before ordering.

Wholesale prices to Growers, Jobbers and Dealers on request. Available varieties are quoted F.O.B. Van Nuys, California. California orders add 3% sales tax—Los Angeles orders add 3½%.

All Bulbs are priced per each, unless otherwise noted.

Minimum item \$.20.

10 to 100 quantities of same variety take a 20% discount.

100 or more of the same variety take 35% discount.

Delivery will be made beginning in early March, as soon as safe from danger of freezing to the Eastern area. West coast and southern orders shipped beginning late December. We feel sure of the safe arrival of bulbs by parcel post, but express shipments are insured by the carrier. In case of receipt of damaged or frozen bulbs your local Express office should be notified at once and a claim filed with them. Please notify us at once, also.

We guarantee our stock to be clean, healthy, and true to name. All stock is offered subject to prior sale; early ordering is advised as some kinds always sell out early. Due to planting schedules we cannot accept bulblets orders after March 1 or bulb orders after April 1.

Bulbs sizes offered are: (Large) sizes 1 and 2 assorted; (Medium) sizes 3 and 4 assorted; (Small) sizes 5 and 6 assorted. In addition to varieties offered, we try to be as generous as possible with over-count or oversizing, and extra varieties for trial. If you wish to send a list of varieties from which we may select extras, we will try to comply with your wishes, subject to size of order and stock on hand. Due to varying conditions of soil and culture we can not, of course, guarantee bulb growth or bulblet germination. Complete cultural information is enclosed with each order.

GENERAL LISTINGS

The figure after the name denotes the year of introduction.

The second column of figures denote the official classification.

The varieties marked with an asterisk (*) denote "No Discount" and such varieties cannot be used or discount or extras.

year, off the new bulb. It is best to burn this discarded material as well as the tops, as they are the sources of thrips and other infestations if left on the ground. As soon as the bulbs are cleaned they are ready for winter storage. Be sure to dust these bulbs with 5% DDT dusting powder.

Care of Bulbs

Every year, if you own or purchase bulbs in the fall, be sure they are well dried or cured and dusted with 5% DDT dust before putting them in your storage. Purchased bulbs should be opened on receiving and inspected, as they may mold if left tightly wrapped for any length of time. Bulbs in storage should be kept at approximately 40 degrees F. in open trays or containers with the bulbs piled not more than 3 or 4 inches deep. Be careful of your bulbs as they are very tender. Look at your bulbs often and shift them about in the trays or containers periodically until planting time in the spring of the year.

Care of Blooms

As cut flowers, gladiolus are supreme. Cut them when one or two florets are open; use a sharp knife, slipping the blade down the sides of the stem to loosen the foliage if long stems are desired; then a turn of the wrist and a little pressure will sever the stem and leave the leaves with the bulb, which is so necessary to produce a large, healthy bulb for the next year. At least five leaves must remain on the bulb to insure its continued growth. As soon as possible after the flowers are cut, place them in a deep container of cold water. Each day change the water, cut about one inch off the stem and remove any wilted florets. Treated this way, gladiolus will be attractive for ten days to two weeks.

COLOR AND SIZE CLASSIFICATION

By using classification numbers we can convey, in the space of a single line nearly all of the information usually presented in several lines of a catalog.

For example: "WHITE GOLD" (506), the first figure "5" shows it is in the Giant class with florets larger than 5 $\frac{3}{8}$ inches across; the second figures, "06", show it to be a cream and our four word description, "Large early creamy white," conveys the rest of the picture, as actually the florets often measure 7 $\frac{1}{2}$ inches, hence the Large is a distinctive feature of this most outstanding variety.

SIZES

Miniature	Class	100—Florets under 2 $\frac{1}{2}$ inches
Small	"	200—2 $\frac{1}{2}$ inches thru 3 $\frac{1}{4}$ inches
Medium	"	300—Above 3 $\frac{1}{4}$ inches
Large	"	400—4 $\frac{1}{2}$ thru 5 $\frac{3}{8}$ inches
Giant	"	500—5 $\frac{1}{2}$ inches and larger

COLOR CLASSES

Class	Class	Class
00 White	30 Salmon, light	60 Rose, light
06 Cream	32 Salmon, deep	62 Rose, deep
10 Yellow, light	36 Scarlet	66 Lavender
12 Yellow, deep	40 Pink, light	70 Purple
16 Buff	42 Pink, deep	76 Violet, light
20 Orange, light	50 Red, light	78 Violet, deep
22 Orange, deep	52 Red, deep	80 Smoky shades
24 Red-orange	54 Red, Black	90 Any other color

NOTE: Ending odd numbers always denote conspicuous deeper markings in addition to normal color shade. Even numbered varieties may have such markings, especially in the deeper color tones, but for the most part are solid colors.
